Address: Al Qanatir al khayriyah. Qalyubia. Egypt

Portfolio: <https://mohammed-saeed111.github.io/Portfolio-Mohammed-Saeed/>

Summary:

Proficient in HTML5, CSS3, and JavaScript (ES6+)/TypeScript, with hands-on experience building responsive, cross-browser-compatible web interfaces. Skilled in translating Figma designs into pixel-perfect, user-centric applications using modern frameworks like React.js. Passionate about writing clean, type-safe code and collaborating via Git/GitHub workflows. Eager to contribute to a forward-thinking team while expanding expertise in full-stack development, UI/UX collaboration, and scalable solutions.

Working experience:

Full-Stack Developer Internship at NTI Cairo University  **NOV 2024- NOW**

- Develop full-stack web apps using MERN Stack (MongoDB, Express.js, React.js, Node.js).
- Reduced API integration errors by 40% through Jest unit testing and debugging.
- Collaborated with Agile teams to design responsive UIs and optimize backend performance.

Customer Service at Etisalat and,  **Mar 2024 – Sep 2024**

- Responded to customer inquiries, resolving issues in a timely and professional manner.
- Provided accurate information regarding product features and pricing.
- Collaborated with internal teams to enhance customer satisfaction and address complaints.
- Maintained detailed customer records and documentation in compliance with company policies.

Education:

Bachelor of Physical Education, 05 / 2022:

- Al-Azhar university at Nasr City.
- Grade: **Very Good with Honor Degree.**

National Telecommunication Institute (NTI), 02 / 2025

- Full-Stack Development Training.
- Cairo University.

Projects:

E-Commerce Web Application (React.js):

A dynamic e-commerce platform built with React.js, HTML, and CSS, allowing users to browse products and manage their shopping cart.

- Technologies Used: React.js, HTML, CSS, Bootstrap.
- Key Features: Product browsing, shopping cart management.

CRUD App Backend:

A backend application developed to handle Create, Read, Update, and Delete (CRUD) operations for managing resources. The project provides a RESTful API for interacting with a database, enabling users to perform basic operations on data.

- Technologies Used: Node.js, Express.js, MongoDB.
- Key Features: RESTful API, database integration, and basic CRUD functionality.

E-Commerce Web Application (JavaScript):

A responsive e-commerce website built with HTML, CSS, JavaScript, and Bootstrap, enabling users to browse and purchase products online. The website features product displays, a shopping cart, and a user-friendly interface, optimized for both mobile and desktop devices.

- Technologies Used: HTML, CSS, JavaScript, Bootstrap.
- Key Features: Product listing, shopping cart, responsive design.

Portfolio Website (Bootstrap):

A responsive portfolio website built using HTML, CSS, JavaScript, and Bootstrap. The website is designed to showcase various projects, skills, and services in a clean, modern, and user-friendly layout. It is fully responsive, ensuring compatibility across all devices.

- Technologies Used: HTML, CSS, JavaScript, Bootstrap.
- Key Features: Projects display, skillset section, contact form, mobile-responsive design.

Technical Skills:

Frontend:

- JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS.
- React.js, MUI, Python, C++.

Backend:

- Node.js, Express.js, RESTful APIs, MongoDB, Mongoose.

Tools:

- Git, GitHub, OOP, Postman API, Agile/Scrum.

Soft Skills:

- Communication skills. | Critical Thinking. | Problem Solving. | Respect and appreciate teamwork.
- Fast Learner. | High research and self-learning ability.

Language skills:

Arabic: Native language.

English (Good command of listening and speaking).
